Professional Summary

Full Stack Developer with 10+ months of professional experience in designing, developing, and deploying scalable web applications using React.js, Node.js, Express.js, MongoDB, and PostgreSQL. Skilled in building responsive user interfaces, RESTful APIs, authentication systems, database-driven applications, and AI-powered solutions. Experienced in integrating AI services, implementing secure Email OTP verification, and deploying production-ready applications using modern cloud platforms. Strong foundation in Cyber Security principles, problem-solving, and software development best practices. Passionate about learning emerging technologies and building innovative solutions that solve real-world business challenges.

Technical Skills

Frontend

- HTML5
- CSS3
- JavaScript
- React
- Bootstrap
- Tailwind CSS
- Responsive Web Design
- React Hooks
- React Router DOM

Backend

- Node.js
- Express.js
- REST API Development
- JWT Authentication
- CRUD Operations

Database

- MongoDB
- MongoDB Atlas
- PostgreSQL

Tools & Technologies

- Git & GitHub
- Postman
- Linux
- Vercel
- Render
- Burp Suite
- Neon PostgreSQL

AI & API Integration

- Google Gemini AI
 - Groq AI
 - REST API Integration
 - Third-Party API Integration
-

Projects

Personal Portfolio Website

Tech Stack: React.js, Tailwind CSS, JavaScript, Vercel

- Designed and developed a fully responsive personal portfolio website to showcase projects, skills, resume, and contact details
- Implemented modern UI with smooth navigation and responsive design for mobile and desktop devices
- Added sections for projects, technical skills, GitHub, LinkedIn, and contact information
- Deployed the website using Vercel
- Live Demo: <https://portfolio-pi-tawny-bdmb5npan6.vercel.app/>

Full Stack Authentication System

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT

- Built a secure authentication system with user registration and login functionality
- Implemented JWT-based authentication and protected routes
- Added password encryption and form validation
- Connected frontend and backend using REST APIs
- Live Demo: <https://authentication-frontend-three.vercel.app/>

JobGenie AI – AI-Powered Resume Builder, ATS Analyzer & Job Matching Platform

Tech Stack: React.js, Bootstrap, Node.js, Express.js, PostgreSQL, Neon DB, Gemini AI, Groq AI, JWT Authentication, Nodemailer, Vercel, Render

- Developed a full-stack AI-powered career assistant platform that helps users build professional resumes, analyze ATS compatibility, and discover relevant job opportunities
- Implemented secure JWT authentication with Email OTP verification using Nodemailer
- Integrated Groq AI for intelligent resume generation and content enhancement
- Integrated Gemini AI for ATS resume analysis, skill matching, resume evaluation, and personalized improvement suggestions
- Built resume upload, resume history, resume library, ATS scoring, and AI-powered job recommendation features
- Integrated PostgreSQL database hosted on Neon for user management, resume storage, analysis history, and job matching functionality
- Designed a responsive dark-themed user interface optimized for desktop and mobile devices
- Deployed the frontend on Vercel and backend on Render with production-ready environment configuration
- Live Demo: <https://job-gine-frontend.vercel.app/>

MERN CRUD Application

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed a full-stack CRUD application with create, update, delete, and search functionality
- Designed responsive frontend pages using React.js and Tailwind CSS
- Built backend APIs with Express.js and stored data in MongoDB
- Tested API endpoints using Postman

Cyber Security Mini Project

Tech Stack: Burp Suite, HTML, JavaScript

- Performed vulnerability analysis and security testing on sample web applications
 - Identified common web vulnerabilities such as broken authentication and insecure inputs
 - Used Burp Suite for penetration testing and request analysis
 - Documented findings and suggested security improvements
-

Professional Experience

Full Stack Developer | Cleverso Software Solution

September 2025 – Present

- Developed responsive frontend applications using React.js, JavaScript, HTML5, CSS3, Bootstrap, and Tailwind CSS
- Built REST APIs using Node.js and Express.js for web applications
- Worked with MongoDB and PostgreSQL databases to implement CRUD operations and data management features
- Developed authentication and authorization modules using JWT and Email OTP verification
- Participated in debugging, testing, deployment, and maintenance of full-stack applications
- Fixed UI and backend bugs to improve application performance and usability
- Worked with Git and GitHub for version control and project collaboration
- Improved application performance, responsiveness, and user experience through UI and backend optimizations

Cyber Security Intern | Corizo

- Learned cyber security concepts, ethical hacking, and vulnerability analysis
- Worked with Burp Suite for security testing and penetration testing basics
- Performed vulnerability scanning and identified common security issues in web applications

Cyber Security Intern | Acmegrade

- Completed training in cyber security and web application security
 - Gained hands-on knowledge of penetration testing and secure coding practices
 - Learned about web vulnerabilities and methods to improve application security
-

Education

Bachelor of Engineering – Computer Science and Engineering

Shanmuganathan Engineering College
2024

Certifications

- MERN Stack Development Course – Simpler Academy
 - Cyber Security Internship Certificate – Corizo
 - Cyber Security Internship Certificate – AcmeGrade
-

Languages

- Tamil
 - English
-

Strengths

- Quick Learner
- Problem Solving
- Team Collaboration
- Adaptability
- Self-Motivated
- Strong Interest in Full Stack Development and Cyber Security
