Professional Summary

Full Stack Developer with 10 months of hands-on experience in MERN stack development. Skilled in building responsive web applications, REST APIs, authentication systems, and backend functionality using React.js, Node.js, Express.js, MongoDB, and PostgreSQL. Experienced in creating user-friendly interfaces, integrating APIs, and working with Git and GitHub in team environments. Passionate about solving real-world problems and continuously learning new technologies.

Technical Skills

Frontend

- HTML5
- CSS3
- JavaScript
- React.js
- Bootstrap
- Tailwind CSS
- Responsive Web Design
- React Hooks

Backend

- Node.js
- Express.js
- REST API Development
- JWT Authentication
- CRUD Operations

Database

- MongoDB
- MongoDB Atlas
- PostgreSQL

Tools & Technologies

- Git & GitHub
 - Postman
 - Linux
 - Vercel
 - Render
 - Burp Suite
-

Projects

Personal Portfolio Website

Tech Stack: React.js, Tailwind CSS, JavaScript, Vercel

- Designed and developed a fully responsive personal portfolio website to showcase projects, skills, resume, and contact details
- Implemented modern UI with smooth navigation and responsive design for mobile and desktop devices
- Added sections for projects, technical skills, GitHub, LinkedIn, and contact information
- Deployed the website using Vercel
- Live Demo: <https://portfolio-pi-tawny-bdmb5npan6.vercel.app/>

Full Stack Authentication System

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT

- Built a secure authentication system with user registration and login functionality
- Implemented JWT-based authentication and protected routes
- Added password encryption and form validation
- Connected frontend and backend using REST APIs
- Live Demo: <https://authentication-frontend-three.vercel.app/>

MERN CRUD Application

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed a full-stack CRUD application with create, update, delete, and search functionality
- Designed responsive frontend pages using React.js and Tailwind CSS
- Built backend APIs with Express.js and stored data in MongoDB
- Tested API endpoints using Postman

Cyber Security Mini Project

Tech Stack: Burp Suite, HTML, JavaScript

- Performed vulnerability analysis and security testing on sample web applications
 - Identified common web vulnerabilities such as broken authentication and insecure inputs
 - Used Burp Suite for penetration testing and request analysis
 - Documented findings and suggested security improvements
-

Professional Experience

Cleversso Software Solution

- Developed responsive frontend pages using React.js, HTML, CSS, and Tailwind CSS
- Built REST APIs using Node.js and Express.js for web applications
- Integrated MongoDB database and implemented CRUD operations
- Assisted in creating login and registration functionality using JWT authentication
- Fixed UI and backend bugs to improve application performance and usability
- Worked with Git and GitHub for version control and project collaboration
- Participated in testing, debugging, and maintaining web applications

Cyber Security Intern | Corizo

- Learned cyber security concepts, ethical hacking, and vulnerability analysis
- Worked with Burp Suite for security testing and penetration testing basics
- Performed vulnerability scanning and identified common security issues in web applications

Cyber Security Intern | Acmegrade

- Completed training in cyber security and web application security
 - Gained hands-on knowledge of penetration testing and secure coding practices
 - Learned about web vulnerabilities and methods to improve application security
-

Education

Bachelor of Engineering – Computer Science and Engineering

Shanmuganathan Engineering College
2024

Certifications

- MERN Stack Development Course – Simpler Academy
 - Cyber Security Internship Certificate – Corizo
 - Cyber Security Internship Certificate – Acmegrade
-

Languages

- Tamil
 - English
-

Strengths

- Quick Learner
- Problem Solving
- Team Collaboration
- Adaptability
- Self-Motivated
- Strong Interest in Full Stack Development and Cyber Security
